Real-time challenge sprint

EVENT OVERVIEW

InnovateX is a high-octane, real-time challenge. The problem drops on the spot—teams get a ticking clock to research, build, design, create, strategize, and defend their response under pressure.

DEVICE COMPULSORY

Every participant must bring a personal device for the challenge sprint.

RULES OF ENGAGEMENT

PHASE 01

1. The Drop

No pre-made projects. You walk in blind. The zero-day challenge prompt drops live in the auditorium.

PHASE 02

2. The Sprint

Split into task forces across Binary Blitz, Canvas Clash, Scene Sync, or Capital Core. Research, prototype, and build under real pressure.

PHASE 03

3. The Pitch

Defend your response against expert judges. Show working builds, strong designs, compelling media, or bulletproof strategy.

DEVICE REQUIREMENT

DEVICE COMPULSORY FOR ALL PARTICIPANTS

- A personal device is required to participate in the challenge sprint.
- Teams should arrive with devices charged and ready for the live task.
- Any domain-specific software or tools must be used within the event's announced rules.

THE AI ADVANTAGE RULE

- Where AI is enabled, prompt engineering is your weapon.
- [Mandatory AI Prompt Log](#): submit your prompt history.
- Judges evaluate critical thinking, hallucination auditing, and manual refinement.
